

SuperFLEX[®]
brand performance stretch wrap

PROLITE[®]

HIGH PERFORMANCE HAND-APPLIED STRETCH WRAP

IT'S LIGHT. IT'S CLEAR. IT'S QUIET. ProLite[®] is a high strength formulation stretch wrap designed for high containment loads while reducing film usage for cost saving benefits.

FEATURES & BENEFITS

- **Excellent load retention** – designed to offer high film holding power to ensure safe arrival
- **Highly elastic film recovery** – keeps film tight even if load settles or shrinks
- **High strength formulation** – tight loads with a minimal amount of film stretching
- **Reduced film “neckdown”** – film resists reducing in width as it is being stretched, allowing narrower initial film width and/or reduced number of wraps applied to cover load
- **Light film gauges** – available down to our lowest 40 and 47 gauge to minimize roll weights and film cost
- **Elevated tear and puncture strength** – tough product resists puncturing and tearing

ORDERING INFORMATION

PRODUCT CODE	PRODUCT DESCRIPTION	MICRON	GAUGE	WIDTH (IN)	FOOTAGE (FT)	ROLL WEIGHT (LBS)
HY1020400-00	10.2MI PRO 400mm × 2,000'	10.2	40	15.7	2,000	5.1
